No. 8585

13 Jan 54

TO: 30
FROM: 25
SUBJECT: Parker Case

1. It has been more than a year since the results of the Telefunken Super test of Parker came to our attention.
2. It was only through this coincidence that it came to light that he had been subjected to extensive interrogation under arrest by the Soviet Intelligence Service after the war.
3. Members of Parker's immediate family were last reported living in Czechoslovakia.
4. The CSW operations the past year have been singularly unsuccessful; only one successful operation was completed; abortive operations conducted by CSW resulted in numerous arrests since its inception.
5. Admittedly, all of the above is circumstantial and not conclusive. However, we strongly recommend at this time that CSW cease espionage operations into Czechoslovakia and that a carefully planned dissolution of the organization take place.
6. As to Parker himself, we recommend that he be given some task which will involve the handling of non-sensitive material and that he be completely divorced from the espionage efforts of the German organization.
7. If this solution is not one with which you agree, we are prepared to discuss alternatives that solve the basic problem of neutralizing Parker with a concurrent thorough security review of any element of CSW that is retained.

25.
